

Let it Grow Competition

To celebrate Earth Day 2023, each child will be bringing home a sunflower seed to grow at home. At the end of the school year we would love you to measure your sunflower and there will be prizes for the tallest ones.

Please can you child bring in a yoghurt/small plastic pot with their name on it into school by Friday 21st April so they can bring their sunflower seed home. You can then transfer it to a bigger pot or a sunny spot in your garden.
